Who could actually beat him?

Rules:

1 vs 1 fight

No outside help

Full power allowed

My pick maybe Saitama but I'm not sure

Convince me I'm wrong

Lol, of course that's "Saitama" one punch and it's instantly dead

saying saitama wins is basically just saying "my guy has infinite stats" which isnt really a debate lol. if we're doing full power then composite superman or some cosmic horror entity from marvel/dc would probably diff him since they actually have defined feats beyond just being a gag character

do you want an actual matchup or just the meme answer? cuz if it's serious then saitama loses to anyone with reality warping or hax that ignores durability
