Thread: [.onion Infrastructure Developer Wanted](#)

????????c? - March 11, 2026, 2:50 pm

EXPERIENCED DEVELOPER WANTED
.ONION WEBSITE & INFRASTRUCTURE PROJECT

? Position

We are looking for an experienced developer to help build and maintain a secure .onion infrastructure.

? Responsibilities

Create the website and the complete infrastructure

Implement the strictest possible security measures (all costs covered by us)

Manage and maintain the infrastructure to keep it secure and up to date

? Compensation

Monthly salary offered depending on experience and skills.

? Contact

If you have relevant experience and are interested in the project, send me a PM or response this thread

Serious inquiries only.

DramaKing - March 11, 2026, 4:08 pm

Sorry, man, jobs have to go in the Marketplace.

Charlie Sheen - March 11, 2026, 4:21 pm

I've moved the thread.
