Thread: [Bruno username for anti-VM/scanners](#)

Hackers - March 12, 2026, 7:06 am

They have been using the username 'Bruno' on many VMs on scanner platforms for a while. So, to keep the world safer, I am sharing this so that if you are building a scanner, you can look for programs using 'Bruno' as a string as possibly having anti-VM. Threat actors could be trying to look for Bruno username without detection.

Is this because of Bruno Mars?

I know your a fan "24k"

"Point your pinky finger to the moon"
