Anyone have experience using <https://manifold.markets/>

They have a prediction not on poly I want in on, kindly advise!

@Mods if this needs to be moved so be it, just let me have a few hours of exposure so I can lock this in.

Manifold is legit and easy to use, but keep in mind it's play money. You can create your own markets there too, which is why they have stuff Poly doesn't.

Just sign up, and you usually get some starter Mana to play with. Just don't expect to withdraw it at best, you can use your winnings to tip others or donate to charity.

maybe you can export the data to make some serious cash?
