Thread: [SILENT MOBILE BOTNET - Automate ANY App - Zero User Notice - Android](#)

ESP GOD - March 15, 2026, 3:24 pm

[center]? SILENT AUTOMATION BOTNET ?

Take Control of Mobile Apps Without Raising Suspicion

Introducing ShadowAutomate, the premier, undetectable mobile botnet framework designed for complete app automation without user knowledge.

Our panel allows you to control a network of Android devices, performing actions inside any application silently.

--- KEY FEATURES ---

- 100% Undetectable: Runs in background, zero notifications, no icon changes, no signature detection.

- Universal App Automation: Works on Crypto, Social Media (TikTok/IG), Game farming, and Surveys.

- Zero User Notice: The user can be watching YouTube while the bot is draining their crypto or generating ad revenue.

- Remote Panel: Real-time monitoring, task scheduling, and geographic targeting.

- [b]Injection Engine: Inject custom scripts into apps (mimics human touches, swipes, typing).

- [b]Built-in Persistence:** Survives reboots and app updates.

[b]--- USE CASES ---

- Automated Crypto Transactions.

- Generating Fake Ad Impressions/App Installs (PPI).

- Social Media Farm (Likes, Follows, Views).

- Automated Game Resource Farming.

Accepting free demo evaluations for market testing.
