Thread: [Upgraded to UBER](#)

Nick Elite - March 16, 2026, 1:35 am

Finally after over a decade, decided to get UBER, haven't been active on lately, just was poking around for marketing but decided to launch our service here as well. Hope this will be worth it, but just the only regret I think I have a little is that I delayed it for too long, as before it was a lifetime subscription for, as far as I think I remember was \$25 but now its \$40 for just a year. But apart from that, let's see what new comes my roadside block.

Lets grow together ?

Well technically there used to be a much more rigorous application process, right?
