Need you to sub to the channel - 24 Bytes.

Need you to like the video - 24 Bytes.

Need you to comment on the video - 24 Bytes.

You can use multiple accounts if you want, you can farm as much as you want. I just don't want SMM services else that I could purchase myself, I want you to use your device while doing it. ?

Send me a convo if you are upto this task and I will forward you the account + video.

Channel has 1 Video and you'll need to subscribe that channel, like that video, and comment on that video.

All done! Check my note about watch time - I watched the whole thing through, people should try to watch 50% or more if they can first.
