? loading encrypted image...

Personally, I find it suitable. File encryption is quite fast. I tested it with WD and Malwarebytes and it passed perfectly. The seller is very friendly and responds quickly.

Crypter Update — v2.5

New: 32-bit & .NET Support The crypter now automatically detects your payload type and selects the right stub. Supports native 64-bit, native 32-bit, .NET 64-bit, and .NET 32-bit. Fully automatic on upload.

New: MSI Output Format Build your payload as an MSI installer alongside the standard EXE format. Available for all payload types.

Improved: .NET Loading .NET payloads now execute fully in memory — nothing written to disk.

Coming Soon: Optional Startup Persistence Toggle-based option to survive reboots.

Can you send me your contact information via DM?

Stanley - March 25, 2026, 6:55 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
