Thread: [need Mirai source code](#)

dssda - March 22, 2026, 12:15 pm

yeah, I need Mirai source code what working on 2026!

Give me please it. Ty

J?son - March 22, 2026, 12:21 pm

<https://github.com/jgamblin/mirai-source-code>

dssda - March 22, 2026, 12:22 pm

does this working on 2026? And can I use this on Windows?

You just asked for a 10-year-old worm that still works today. You made an impossible request.

ghost0101 - March 22, 2026, 1:31 pm

can i get working ceypter

Stuxnet - March 22, 2026, 1:38 pm

The SC is on github and last updated 10 years ago do you think it is still working?

vetbesim - March 22, 2026, 2:28 pm

this is also interesting <https://mirailovers.io/>

C00Lssh - March 22, 2026, 2:40 pm

i do have this original source code. along with sooo many others. shoot me a message.

Yo, he is total ripper

that fucking asshole was hyping it hard — said it would work smoothly with Cloudflare, claimed high

success rate and advanced bypass capabilities. Kept pushing that it was “tested and proven”.

But when I asked for proper testing or a demo before sending the coins, they refused and said “pay first, you’ll see it works”.

After I paid, he gave me fake result-just fucking result. If anyone thinking about buying, demand clear proof and independent testing upfront. Don’t trust him. Total ripper

-rep , he is liar

mirailovers should have it, you can search for them

PappyProxy - April 19, 2026, 10:16 am

Run it on a client working fine just a bit dirty i mean old methods, i am sure you will get port filtered by any good traffic defense service.
