Thread: [Developer - Checkers / Bots / Sites](#)

Prawnster - March 23, 2026, 4:42 pm

Hi,

Years of experience with Python & Golang and workable experience with PHP/Laravel.

I've built mostly checkers, crackers, VM/VNs, account creators or full site bots (e.g. X bot, create account, post ... amount of replies, logout - repeat).

Available for similar projects or different ones depending on the requirements - Happy for quick, cheap products or big projects.

I'm fairly adaptable and since I've got a lot of experience with dev work, if you have an idea, I can probably make it :D

Drop me a convo on site with:

Quote:Target site:

What the tool has to do (e.g. check EM:PW list):

Budget:

Required date of completion:

Happy to entertain any and all targets - I can target android apps or websites.

[contract=tid]Start Contract[/contract]

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
