Thread: [Weird ass portmap.io issue](#)

dewo - March 24, 2026, 10:32 am

So i used to use portmap for ratting with Gomorat but my acc then got banned, i made a new one but shit literally just doesnt connect anymore at all on portmap, i followed all the fuckin steps correctly too.

Can someone tell me wtf is happening

DramaKing - March 24, 2026, 1:48 pm

You used portmap for a malware handler. That's your problem.

Good, hopefully the VPN gives you a static forwarded port. The legit ones that offer the feature tend to assign ports dynamically.
