Pretty sure unless you are a vendor you cannot accept payments without contracts and cannot provide links to direct buy. I may be wrong however when I was selling tools this was a ruling. Looks great however, GLWS!

What are the output filetypes/extensions?

Credentials recovery are they only chrome-based browsers or also firefox.

Also any plans to recover from email clients like thunderbird, foxmail, outlook mail app, etc?

I'm guessing it will need a crypter, right?

Can I have a vouch copy?

Inbtw GLWS

Hello . Could you post a video demo, of UI?

Stanley - April 21, 2026, 12:11 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page

and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

How good is the hvnc? Does it have a gui or is it webbased? Pinning this to come back later, might try this one.
