This looks like a fun project, does this work for usernames/user IDs that have their phone number set to private?

Also, is this something fresh or is it using the same backend as this:

<https://github.com/bellingcat/telegram-phone-number-checker>

^ I know this is mainly for phone number -> usernames but 5 months ago it also added username ->

phone number as far as I can tell.

Cheers! :)

If the user disables their phone number and username, can you retrieve them?

Cheers! :) Hey, thanks! Yes, it works for usernames/user IDs even if the phone number is set to private it doesn't rely on the number being public to return results.

Bellingcat tool is solid for what it does, but this goes a bit further in it can look up more data points like historical usernames, user IDs, and their associations not just the phone<->username
Cheers! :)

This looks interesting.

Hey! Appreciate the interest. I can hook you up with a vouch copy.

PM me and we'll sort it out.

C00Lssh - March 27, 2026, 12:18 pm

i have worked with the user, he does not have a site up yet as he is building his reseller portal from: <https://whoisbehind.ru/>

Much cheaper. Its a cool service, but if you are going to resell, you should make things slightly cheaper than the originator.

Good luck with sales!

[m3tary46](#) looked up my TG username and found the phone number listed on the account. Definite

vouch for this service. If OP can find it, he will.

Here listed is the privacy and security settings for the username he looked up.

+vouch good service, very friendly seller. tried the service previously and it works well. recommended. GLWS!

casperr - April 2, 2026, 3:29 pm

Big vouch for this guy. He managed to find the phone number on my account even though it was fully hidden/disabled. I've been working with him for a while great job.

Hi, I was recently scammed and the only thing I can see on the user is their username. I also have their other name they use on a different forum where they sell, but that is it. Can your service help get more info?

Hey! Sorry for the delay, I've been busy this two weeks, if you still need help, I'm here!

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Can you please share the scammer's telegram username/id?
