Super Smash Bros. Amiibo Figures Are Discounted At Target

One of the coolest--and most affordable--Nintendo collectibles you can get right now is an Amiibo. These miniature figures capture the likeness of Nintendo's many recognizable characters from series like Super Mario, Kirby, and The Legend of Zelda. The most prolific of these Amiibo collections is the Super Smash Bros. line, which features dozens of characters based on their appearances in Super Smash Bros. Ultimate. Some of these figures can be hard to track down, but thanks to Target, you can save big on select Smash Bros. Amiibo for a limited time, including Mario, Pikachu, Samus, and many more. On average, you can save \$5 - \$10 per Amiibo figure, and each one is compatible with Super Smash Bros. and various other Switch and Switch 2 games, meaning you can scan in the characters to unlock bonus content, track battler stats, and more. Check out the full list of discounted Smash Bros. Amiibo below.

Super Smash Bros. Ultimate Amiibo Save up to \$10 per figure

Bowser -- \$35 (\$40) Greninja -- \$35 (\$45) Jigglypuff -- \$30 (\$35) King Dedede -- \$29 (\$40) Mario -- \$30 (\$40) Pikachu -- \$25 (\$30) Rosalina and Luma -- \$15 (\$20) Samus -- \$35 (\$45) Sheik -- \$35 (\$40) Yoshi -- \$40 (\$50) Wario -- \$35 (\$50)

Our top recommendations here include Greninja, Wario, and Sheik, which ooze personality through their action-packed poses. Not only do these figures look great, but they can also battle in your stead in Super Smash Bros. Ultimate. By simply tapping a compatible Amiibo to the NFC touchpoint on your Nintendo Switch Joy-Con or Pro controller, you'll get a figure player who'll appear in Super Smash Bros. Ultimate and will fight on your behalf when you're away. These fighters can learn new abilities and tactics as they fight, and the more they battle, the more abilities they gain. They can be upgraded further, and when you're confident in their skills, you can send them out to battle against other players' amiibo fighters for you. Of course, you'll need a copy of Super Smash Bros. Ultimate for this, and you can grab one at a slight discount on Amazon during its Spring Sale. Normally \$60, it's on sale for \$54.71. This is entirely optional, so if you just want a cool pocket-sized collectible, then these Amiibo figures will look great on your shelf or desk. For more Nintendo deals, check out these specials on the high-end 8BitDo Ultimate 2 controllers and the kid-friendly Mario-themed peripherals that'll work with Switch consoles. These deals are part of Amazon's Spring Sale 2026, which runs until March 31--but we've seen many deals selling out already, so check them out while you can.

I used to have a ton of Amiibo figures on my shelf, my dog is wonderful and thought they were all just really cool chew toys. Good for anyone wanting to pick some up though for sure.
