Thread: [CheapAI Access GPT-4o, Claude, Gemini & more for 10x less](#)

Cheap AI - March 28, 2026, 9:55 pm

Alright boys,

Been working on this for a while and finally ready to drop it

CheapAI is an API reseller store where you get access to the top LLM models — GPT-4o, Claude Opus / Sonnet, Gemini, DeepSeek and more — at a fraction of what OpenAI/Anthropic charge you directly.

No subscription. No monthly fee. Pay what you use

Why bother?

No account bans, no usage limits bullshit

Crypto accepted — no KYC headache

Works with any API wrapper, script or bot you're already running

[contract=tid]Start Contract[/contract]

So slight confusion my bad, also your signature doesn't link anywhere-?

Where are you getting \$0.03/k tokens from? Whoever was doing that API connector for y'all was scamming lmao.

Since your signature doesn't work can you at least like tell us what model you guys run? Cuz yeah 0.03k is wild and wrong unless you mean you guys are offering GPT-5.4-pro?

Input/output/k for current models (other than 5.4-pro)

GPT-4o \$0.0025 / \$0.010/k

Sonnet \$0.003 / \$0.015/k

GPT-5.4 \$0.0025 / \$0.015/k

GPT-5.4-mini \$0.00075 / \$0.0045/k

GPT-5.4-nano \$0.0002 / \$0.00125/k

All of those are wildly far from \$0.03. Are they being funneled through a larger account of some sort btw? Be nice to kinda know better info about everything.

Using one or a few accounts and routing people through them is against OpenAI/Anthropic's ToS and get super pissy over that stuff. Get banned and now poof we are SOL.

Ahhhh gotcha. Okay neat, appreciate the info.

And nono not like the user getting banned, I was more worried about if it was being funneled through a few real accounts, as those accounts could get banned and it's just an easy rug-pull type

situation.

Good luck o7 The API prices are pretty atrocious lol.

I agree, there is also a privacy risk. Who exactly see's the input the customers are providing for this service?

i agree with you but in general you shouldnt give ai your sensitive information. I dont care about your data, if you have any suggestions how I could make it more trustworthy let me know. But to provider these api keys for cheap it has to run through my own server

You received a vouch copy and then made a negative credibility because you don't know what an API key is.

Mate sort it. We know who you are already.

Personally I don't need api keys... but ill vouch for you if you want because I understand and know how to use API keys.

I'm not begging for a vouch, if you want ill test them out. Just to give you some more positive feedback if your a genuine seller.

This is a good point but anyone making money properly using AI will have their own keys.

This is entrance level, personally I feel.

Maybe good for testing functionality before full deploy IDK.

Thats actually not what happened.

I didnt realize it was a key at first, then simply asked a question and got rude comments, which by time i even tried testing. The key was revoked.

TBH mate, negative feedback because you didn't know what vouch you were asking for? I mean its pretty shitty tbf.

Maybe seller was a bit pissed you asked for a vouch without knowing how to use an API key? IDK but to get a neg credibility for giving away something.. i think is off.

He gave the negative cred first. I mean how could i give positive when i never got it, and the key was revoked.

Its all okay, no stress here mate. GLWS to the OP

No drama but I wouldn't be asking for a vouch condom if I didnt know what to do with it.
Just fact.

Good luck with it anyway.
Maybe I can get you both to drop this negative feedback as a misunderstanding.

It's against the rules of HF to ask for a Vouch Copy. OP can offer vouch copies, but you are not allowed to ask for vouch copies if they aren't already being offered in the original post.

Vouch Begging

Do not ask for vouch copies unless the original poster (OP) has explicitly stated they are offering them.

Read the [Help Docs](#)

<https://hackforums.net/misc.php?action=help&hid=35>

If I am wrong and OP did originally offer vouches, then my bad, but from how you wrote your reply, it sounds like you violated the Marketplace Rules.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for

each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
