Thread: [TELEGRAM LOOKUP Every Group. Every Username. Every Date.](#)

Basilisk - March 29, 2026, 4:00 am

Hey, figured I'd put this out there. I've got a tool that lets me look up what Telegram groups someone's in. Yeah, even the ones they probably don't want people knowing about. I can also pull up their old usernames and when they changed them. It's \$10 per search. That's it. Here's how it works — nice and simple: You send me their Telegram username. I do my thing. You get a list of their groups + username history. That's literally it. No complicated process, no hoops to jump through. What if I can't find anything? I'll give you a full refund or run another search for free. Your choice. What if I find 2 or more groups? Then we're square. No refunds at that point — I delivered. Honestly, I keep it pretty straightforward. You pay, I find, you get results. Most people are surprised by what comes back. If you're curious about someone's Telegram footprint, shoot me a message. NEW - Can also send all the members or a private group for an additional fee. Fast and very smooth service. Thanks again!

Can someone vouch for it? If this is legitimate and actually gives you the proper results then I'm interested.

EDIT: Does it also include the private groups? Like actual ones that aren't scrapable with these known methods?

I was just scammed by a user and only can see their telegram username and also their username on another forum that they sell from. Is that enough usually?

Sent a PM, DM on Telegram and nothing. I never understand why communication with sellers can be awful. Only a few sellers I've found are truly responsive.

Hey, I haven't been here for a couple of days due to personal reasons.
I've replied to both.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
