Thread: [Google Indexing API Keys Increased Quotas \(100K-500K/day\)](#)

Sonymous - April 4, 2026, 2:52 am

Looking to buy Google Indexing API keys with already increased daily quotas.

Requirements:

Must be Google Indexing API keys (not Search Console, not regular Search API)

Daily quota already raised: 100K to 500K requests/day minimum

Keys must be currently active and working

Service account JSON format preferred

Important:

Every key will be tested before payment is confirmed

I'll run a small batch of test URLs through each key to verify quota and functionality

Dead or revoked keys = no deal

Details:

Looking for 1-5 keys to start, scaling up if quality is solid

Interested in ongoing supply if you can provide fresh keys regularly

Payment via crypto (BTC/USDT) or PayPal (Paypal with invoice only)

PM me with:

Price per key

Confirmed daily quota limit

How the quota was increased (GCP project type, etc.)

Quantity available

Any replacement policy for revoked keys

Long-term business relationship preferred. Serious sellers only.

We require a scalable, stable, enterprise-grade setup with volume discounts, bulk credits, or long-term enterprise agreements. Only serious, long-term suppliers please message me directly.
