Why [deleted]Is the Best Payment Platform Selling for Digital Goods

1 High-Converting Checkout for Digital Goods

[deleted]

Komerza provides a high-conversion checkout for digital products, optimized specifically for instant-delivery tools and subscriptions.

The checkout is designed to:

- Reduce payment friction
- Increase successful payments
- Support Apple Pay and one-click checkout
- Display trust and security signals
- Work perfectly for subscriptions, renewals and account selling

The average global checkout conversion rate is around 60%, which is significantly higher than most generic checkout solutions.

If you are searching for a Digital Goods checkout system that actually converts, Komerza is built for that exact use case.

2 Built-In Affiliate System for Digital Good Sellers

[deleted]

Komerza includes a native affiliate and referral system for digital products, which is extremely effective for marketing.

With the built-in affiliate system, you can:

- Let users promote your Digital Goods

- Track referrals with links or coupon codes
- Offer store credit commissions
- Provide affiliates with a branded dashboard
- Monitor affiliate performance in real time

This makes Komerza one of the best platforms for running a Digital Goods affiliate program without third-party software.

3 0% Fees On Every Transaction And Tons Of Payment Gateways Accepted

With 0% transaction fees, Komerza lets you keep 100% of your revenue on every sale. Accept payments globally using cards, crypto, wallets, and 30+ supported payment methods, all through one unified checkout. Whether your customers prefer traditional card payments or privacy-focused crypto options, Komerza gives you the flexibility to sell worldwide without limits, processor lock-ins, or hidden fees.

4 ? Transparent Pricing (No Hidden Fees)
