? Frequently Asked Questions ?

Q: Which proctoring platforms do you support?

We support all major platforms including ProctorU, Wheelbox, PearsonVUE, Honorlock, and many more. If you have a specific university or corporate portal, just ask.

Q: How does the process work?

We establish a secure remote connection to your computer before the exam starts. During the session, you simply sit in front of the camera and pretend to take the exam as normal, while our experts handle all the questions and navigation for you in the background.

Q: Is this method detectable by the proctoring software?

No. We utilize proprietary bypasses that remain completely invisible to system scans, kernel drivers, and AI behavior monitoring.

Q: Do I need to install any suspicious software?

Our setup is streamlined to be as non-intrusive as possible. We guide you through the technical requirements during our pre-exam briefing.

Q: What happens if I don't get the desired score?

We guarantee a passing grade or a high-percentile result depending on your requirements. If we fail to deliver the agreed-upon result, you get a full refund.

Q: How do I book a slot for my exam?

Reach out via Telegram or Discord at least 48 hours before your exam. We need time to sync our schedules and perform a system check on your machine.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
