Thread: [I am in hospital. So, that's why I haven't been getting back to DM messages.](#)

The Pact - April 5, 2026, 6:15 pm

I'm only making this thread due to people DMing me to help with things.

I want to let you know why I'm going to be slow getting back to you. So, DMing Cap or Charlie is probably better right now.

This is a public health system, so I'm not getting out of hospital any time soon.

And as old as I am, I'm still younger and prettier than all the other patients I see, so my operation is probably going to continue to be postponed.
