? Looking for a Growth Marketer — 50/50 Profit Split

Hey HF community,

I'm the founder of G0I ([g0i.shop](#)) — a unified AI platform with 500+ models including GPT-5, Claude Opus 4.6, Gemini 3, DeepSeek V3, Qwen, plus image generation (NanoBanana) and OpenAI-compatible API.

What's ready: 500+ AI models in one place — chat, image, video, embeddings

Clean chat UI, API keys, usage tracking, billing

700+ users onboarded, 1B+ tokens processed

OpenAI-compatible — works with any existing tool

Multiple brand versions ready to launch

The offer:

I'm looking for someone who can get users in exchange for a 50/50 profit split. I run the product. You handle user acquisition — social, communities, SEO, paid ads, partnerships, content, whatever works.

Long-term partnership. Transparent revenue reporting. No one-off gigs.

Reach out if you: Have done growth for SaaS or AI products before

Understand the AI user audience

DM me on HF or drop a comment. Let's build something.

— G0I team

so you are saying someone should pay for ads, workers, placement fee's, etc. and then split 50/50 with you?
