PetrovDefense - April 14, 2026, 5:35 pm

Hello everyone,

I am launching a business with a product but am terrible at marketing and sales.

The idea is I am looking for a long-term business partner with advanced and proven success on the marketing/sales side.

I will be delivering the product, you will be solely focused on bringing in the business using advanced inbound/outbound approaches.

We split the profit 50/50. This will be a real product and real business. Serious inquiries only.

Thank you,
Petrov
