Thread: [Finding names from address?](#)

Connor99z - April 19, 2026, 10:23 am

Is there any way i can find a list of names/phone numbers from having an address?

This really depends on the targetted country, some offer white pages for exactly this, you can SE the land owner aswell but that doesnt really count as osint, there are other methods but as I said, if your more specific, I can help you further :)

Im from the UK, The address I have is also from the UK

I have a full Address and Postcode also 2 resident names but I have 0 phone numbers, wondering how i can obtain this.

I have tried various websites and paid for fees to find electoral rolls but they only show dates, no numbers. would be the only way to either visit site address or send a letter?
