Thread: [I'm looking for a partner. There is a Drainer of its own](#)

Hello everyone. There is a Drainer of its own design. It works with the Ethereum, Tron and Solana networks. It works with both mobile applications and browser extensions.

It was tested on popular wallets: MetaMask, TrustWallet, OKX Wallet, TronLink, TokenPocket, Phantom, Solflare.

I am looking for a partner who will provide traffic to it.
