Thread: [Looking for Lead Generation and Traffic Services](#)

PetrovDefense - April 22, 2026, 1:58 pm

Hi everyone,

You may have seen my last thread <https://hackforums.net/showthread.php?tid=6323844> recently.

I found a Partner through that thread and through our business, we are looking for support on finding and working with a team that focuses on sending traffic, and lead generation within a specific mix of industries that we are focusing on.

Please reach out if you have:

- Traffic sources in the area of the trades (e.g. plumbing, HVAC, roofing, construction etc)
- Proven can actually generate inbound leads
- Multichannel would be helpful
- Examples of lead generation results for your clients, and your general strategy
- Have ideas that I may not have covered

If able to drive results, this would be a long-term relationship between our venture and yours. Serious inquiries only.

Thank you,
Petrov

Hey shoot me a DM , we run a web dev / seo agency , 80% of our clientele are contractors / service businesses.

Would be happy to discuss if we are a good fit for you.

locally

English speaking focused. Industry is more critical to us more than any other factor.
