Thread: [Payload Delivery Methods | LNK, XLL, DLL SIDELOAD, WD BYPASS, SMARTSCREEN BYPASS](#)

HighRoller - April 23, 2026, 3:15 am

I offer custom private payload delivery methods

Methods:

ClickFix, CrashFix, Fake Captcha, WebDAV FTP, BitB Attack | \$35

Payload Delivery: LNK, XLL, PIF, HTA, VBS, JS \$65

Payload Crypt without UAC : \$35

Payload Crypt with DLL sideload without uac: \$70

Payload Crypt + UAC exploit + DLL sideload: \$200

Each method guarantee bypass Windows Defender and other AV in runtime, mainly WD

I will add more details and screenshots soon.

You don't add any information on the WD DISBLR? Does it disable Tamper Protection?

hello brother, provide your telegram via pms, i need clickfix setup

HighRoller - April 29, 2026, 3:09 am

WD exclusion does work perfectly and I can disable any AV as extra service if required

darkman110 - April 29, 2026, 5:07 am

Can this work with an msi file? Also do you have Telegram?

TEKNIX187 - May 12, 2026, 2:30 am

Hey this looks great man. Any chance for a VC for me? Will write a good review.

Thanks. GLWS

Could you DM me your telegram please?

MythosMaster - July 9, 2026, 10:58 am

I'm interested in your delivery methods... dm me or give tg/tox

itcorp - July 11, 2026, 2:42 pm

Is there a vouch copy available for analysis?

darkman110 - August 10, 2026, 7:31 am

Hi, I am interested in the product, can you send me your tg.
