? (INSTANT) INSTAGRAM & FACEBOOK BAN SERVICE ?

We provide a 100% guaranteed ban service for Instagram and Facebook accounts, posts, or threads.

Ideal for targeting rule-breakers, spammers, scammers, or rivals. Accounts are typically removed within 1–72 hours, often in under 36 hours.

(Note: Results may vary for top-tier verified accounts and large business profiles)

Why Trust Our Service?

- ? Immediate Enforcement: Unlike standard report queues that take 7–14 days with low success rates, we work directly with internal moderation teams. Bans are executed fast and efficiently.
- ? Permanent Bans: We specialize in irreversible account termination. Unlike temporary suspensions that allow for appeals, our bans are final and permanent. Your target is removed from the platform for good.
- ? Price Assurance: Our quotes are competitively structured and range from \$250 to \$550, ensuring transparency and affordability. Price provided via TG depending on the account.
- ? Transparency: No false promises. If we accept your case, you get a confirmed ban or a full refund guaranteed.

How It Works:

Message us on TG with details: target username/handle, violation type, and current status.

We assess the case and provide a price based on account type, enforcement history, and platform difficulty.

Once agreed, payment is processed and moderation begins immediately. We bypass automated filters for direct action. Any cryptocurrency is accepted.

Act Now:

Stop waiting weeks for uncertain report outcomes. Get your target banned fast, guaranteed, and at the best price. Message us today.
