Do you buy it with money or can't you buy it with money?

You can earn them by simply posting and being active on site or you could buy them too from a reputable member here: [Currency Exchange](#)

Man, just stay active... interact with the members and you'll see the bytes increasing like rain.

I think you need to be a part of a group where you earn more bytes, else it's really hard ^^

Well, to be honest, you do have a point... but it would also require you to have something special in order to be accepted.

Yea, I don't mind it as I'm not gambling my bytes and they are stacking anyways ^^

You just need to post and actually probably not gamble them away. Or you can buy them. What do you think being part of a group really has to do with it?

I saw some groups have boosts like 500-1000% extra bytes, so in this kind of group it will be easier to farm bytes. I don't gamble my bytes, just save them and giveaway them. I made a lot of bytes from my activity, so I can't complain :)

Usually for a limited time. But you could try joining a group. I wasn't in any groups for a very long time here.

I made attempt to join 2 of them already but was not accepted. I will wait some months before trying again :)

Make sure you read whether they are even open to invitation beforehand because a lot of them close to new members for a while so it might have just been that. Although if you gossip on Discord that can get back to group leaders who then don't want the member that was gossiping.

I like groups and it would be cool to be in one, but joining a group to farm bytes seems stupid. I wouldn't join a group if I don't have homies there what's the point otherwise a cool title? lol

Sounds like you either need to post more (don't low quality post obviously) or buy some.
