Hi everyone, I'm new here.

I really like the cybersecurity world.

I don't know much stuff about it yet.

I would like to learn new thing and I'm open to every tipe of advise to improve my skills.

I want know about everything (osint, ai tools, ways to earn money, and other)

your best start is red bull kali linux box
and google i am not joking start with hacking your neighbors wifi network with
<https://www.kali.org/tools/kismet/>

wifite2

then start with arp poisoning MiTM attacks etc
there are tons and tons of videos on youtube that will help with this

also sign up for tryhack me they can teach you alot to

i wish you nothing but success in your endeavors
