Thread: [Bought 400 SUI on HF Crypto Game today](#)

Hackers - April 30, 2026, 10:42 am

SUI at \$0.90, don't care about overall market, I told myself I would spend as many bytes on crypto game as I can instead of /flip or random /rain, etc. We'll see where it's at in 5 years.

Bought 400 SUI for just under 400 bytes just now. We'll see where it goessssss!

Anyone else still liking SUI overall? I want to see it over \$1 again and obviously would like to see it at \$5, but there are just too many things going on to pretend that's guaranteed.

SUI is an L1 and uses Move for dev/contracts ecosystem which I like. Obviously it needs more use cases to truly explode, but can't rule it out.

I only have 803 owned on HF currently :O

That's a lot of SUI but I would do it if I had the bytes handy

I never know what to do with Bytes so last week I tossed em all on SUI.

What convinced you to purchase SUI for under 400 bytes at the current SUI price levels?

Might buy some too if price drops, not sure what else I can do with these bytes ^^
