Thread: [Payment processors](#)

Sift - April 30, 2026, 12:11 pm

Are there any payment processors that dont require id or KYC verifications or is cryptocurrency the only way to accept payments without id or kyc verification?

I'm working on a gateway that allows you to run card payments that will be paid to you in crypto, with no KYC/KYB. Watch this space

Im also looking for something like this

N604 - May 19, 2026, 4:51 am

If you're interested in a custom crypto gateway with BTC/LTC/TRX/XMR/ETH support let me know.
Yearly or monthly payment, hosted on your server/I can provide the server aswell.

(Apr 30, 2026 12:11 PM)Sift Wrote: [\[CITE\]](#) is cryptocurrency the only way to accept payments without id or kyc verification?Yes, cryptocurrency is the only way to accept money more or less anonymously.

Dipu4u - June 5, 2026, 3:56 am

with crypto currency yes there are many , which dont ask for kyc.
But anytime they may ask if the government makes strict actions to them.
How about meta mask.
I signed up recently it have not asked me for anything.

strict actions to them. How can we respond to the government if we don't even know how many users we have? If you want to remain anonymous, choose services that don't track you.

kainzerdick - *September 22, 2026, 3:33 am*

I own a direct PSP on my country.. we don't have any strict KYC but the downside is that we focus on our own country
