I will fully build front end and back end and set up the entire site I will do all dev work add any games we can think of that would be fun

Need someone with strong SEO and marketing skills to drive traffic

We split set up costs 50/50

Just seeing if anyone out here would wanna hop on board with that

Rev split 50/50 to

Also on the table a crypto to crypto exchange but honestly I'd lean more towards the casino more profitable imo

Okaiiii bye hmu if interested

Depending on the costs you need upfront, I'd be willing to invest.

I can help you bring traffic once you are ready with the project if you need affiliates. Got 10+ years of experience in that field.

I've been wanting to do this for a long time, but I have little to no Dev experience.

I can though, drive traffic, pay influencers to promote manage branding affiliate live chat etc for you.

Let me know how this progresses I'd love to be a part of this.

Unfortunately this project has been completed and funded by me solo no one wanted to invest once they found out it was gonna cost more than \$100 lol

Thanks to everyone who did attempt to help later on and just had bad timing much love to everyone tho
