Thread: [Automated eSim Shop | 100% Profit Margin | Easy to Scale \(\\$0 running cost\)](#)

SIM-2470866 - May 5, 2026, 2:18 pm

Hi, I created this for someone on this forum but he decided to bail last moment.

I'm putting it up for sale for anyone to pick it up and start selling.

This is eSim DATA only (No Calling/SMS)

The website is fully automated.

User comes -> Purchases -> Automatically process from the backend and delivers to the user.

Profit margin is currently 100% (Even after 100% it is the cheapest pricing you can find on this forum or any other as far as I have seen)

Payment Methods: Stripe, Authorized, OxaPay and PayPal (Configured)

Built-in Blog CMS: Create Blog posts from the admin panel easily for SEO and backlink creations.

Monthly Running Cost:

Can be \$0 if you prefer, unless you want to go big and then you might have to buy subscriptions or a hosting yourself.

The only cost is keeping balance in on your API Provider

I have the website up and running, if you are interested you can DM me to get a preview.

Accepting offers ;)

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
