Charlie Sheen - May 8, 2026, 7:08 pm

I had started seeing a lot of clips from this movie lately, one clip specifically kept popping up. Last night I decided to check the movie out. It's on Netflix, it stars Taron Egerton, Eric Bana, Charlize Theron. This movie was absolutely incredible. This one is definitely a wild ride. I don't want to reveal too much because I went into this without watching any trailers or reading up on it and I was absolutely blown away. So for the first time in one of my movie review threads, I won't be posting a trailer for it. Instead I'll just say this movie is a 10/10.

This post makes me want to buy Netflix right now.
