Thread: [\[Release\] HF News Archive Project](#)

xadamxk - May 10, 2026, 8:31 pm

Try searching your username / UID in the event viewer for a complete timeline ->
<https://xadamxk.github.io/hf-news-archive/>

Purpose

This project preserves the events covered in each Hack Forums News edition — site changes, member awards, group activity, notable threads, and the writers behind each edition — as machine-readable JSON. By keeping a curated mirror offsite, the archive ensures the history survives thread deletions, account closures, nuclear explosions, and any other future changes to the site.

Features: 560+ editions covered, going all the way back to Edition 1 (2010).

7,100+ individual events — site announcements, awards, group changes, notable threads, contests, contributors, and more.

An event web viewer with full-text search, user filter (by username or UID), category filter, date range, and sortable order.

Fully open source — everything is in a public GitHub repo, including the raw post/blog data the events are curated from.

Editions tab to quickly access all previous editions

Statistics tab that aggregates activity related statistics over time

News Editions List

[HF News Editions 1-300](#)

[HF News Editions 301-current](#)

Missing editions

32 editions could not be archived because the source thread or blog post was deleted, junked, or never captured before the archive was started. These editions exist as numbers only — no raw data, no curated events:

Code 14, 15, 340, 341, 359, 472, 485, 486, 487, 488, 504, 512, 513, 514,
515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528,
529, 530, 531, 532

Edition 359 still has a thread link in editions.csv, but its first post was junked, so no usable content remains. If you happen to have a saved copy of any of these, please drop a reply — even a screenshot is a good starting point.

FAQ

Spoiler [\(Click to View\)](#)

What is the purpose of this archive project?

To preserve the historical record of Hack Forums News events in a place that does not depend on Hack Forums itself or the HF Wiki. Both of those can change, lose content, or disappear; this repository keeps a portable, structured copy so the history remains accessible regardless of what happens to the primary site.

I found an error or missing event, can you fix it?

The fastest path is to fix it yourself: clone the repository, edit the relevant editions/`<N>/events.json` (or add a new one), and open a pull request. Corrections, newly discovered events, and other improvements are all welcome. If GitHub isn't your thing, you can also just drop a reply in this thread and I'll get to it on the next pass.

Where does the data come from?

Most editions are pulled from their Hack Forums thread via the HF API, which writes the raw posts into editions/`<N>/posts.json`. Editions 442–508 were sourced from member blog dumps (`blogs.json`) instead. From there, each edition's `events.json` is curated by hand following the conventions in the parse prompt.

Why are some editions missing?

The source content is gone. Some news threads were deleted, junked, or migrated away before the archive existed; some blogs were never captured. The 32 affected edition numbers are listed above. If you have a copy of any of them, please open a pull request adding the source data.

Is there a viewer / web UI?

Yes — the web viewer at xadamxk.github.io/hf-news-archive is a static React app for browsing every event in the archive. The source for the viewer lives in the `viewer/` directory of the repo if you want to run it locally.

Can I contribute? How?

Pull requests are welcome. Common contributions: filling in details on existing events, adding events that were missed, or adding entire editions (especially anything from the missing list). The viewer uses Bun; the post fetcher uses Node and needs a Hack Forums API token.

What do "Journalist (Section)" and "Contributor" roles mean?

On the Contributors to this edition. event, each contributor carries a role string. Journalist (Headlines), Journalist (Awards / Tech), etc. means that member wrote the named section(s) of the edition. Contributor means they appeared in the closing "thank you" credits without being attributed to a specific section.

How often is the archive updated?

The archive is updated manually, so expect long gaps — sometimes months — between catch-up passes. New editions are added in batches when time allows rather than on a fixed schedule.

License / data reuse terms?

Feel free to extract whatever you want from the `events.json` data for your own projects. If you do build something on top of the archive, please help keep it current by sending fixes and new editions back upstream so everyone benefits from the same history.

Roadmap

Spoiler ([Click to View](#)) Fill in HF News contributors for older editions (357, 358, 360–471, 489–503, 505–511, 533–539).

A script that uses the HF API to refresh usernames on every UID in the dataset.

A "back to top" floating button in the viewer.

Viewer settings: pagination size, theme switcher, etc.

More theme options that match older HF skins.

A "News Contributor statistics" page.

Optional infinite-scroll on mobile.

Tags / sub-categories within the existing categories (rules, awards, RKO/repfucks/rep kills, etc.).

Splitting user events into individual entries so per-user stats (bans, RKO, etc.) are countable.

Possible future projects: "HFdle" — a daily quiz site/thread based on historic events from the archive.

"During this Week" — events from the current calendar week, pulled from past editions.

If you spot something wrong, find a missing edition, or just want to leave feedback — reply below.
Thanks for reading.

Charlie Sheen - May 10, 2026, 8:56 pm

This is amazing. I actually go back to random threads from 15+ years ago sometimes in the Site News just to read old news threads.

High quality project [xadamxk](#)

m0hx - May 10, 2026, 10:28 pm

That's so cool :D i can see my past self (bans) and some non existing threads lol.
thanku [xadamxk](#)

Vip?r - May 10, 2026, 10:43 pm

first thread that pops up "Account closures"

? loading encrypted image...

Eran - May 11, 2026, 12:02 am

Looks really nice and clean. My name popped up twice. Looking forward to potential updates :)

xadamxk - May 11, 2026, 9:54 am

(May 10, 2026 10:28 PM)m0hx Wrote: [\[CITE\]](#) That's so cool :D i can see my past self (bans) and some non existing threads lol.

thanku [xadamxk](#)

Unfortunately I can't fix the nonexistent threads :(

It is cool to see all these past events though. Slightly bummed the HF News was cancelled for several years around 2021-2022

HerrWinston - May 11, 2026, 11:38 am

Very cool project, was nice serching my name and some others here, love it!

Sift - May 11, 2026, 11:48 am

Very nice project.

Mix - May 11, 2026, 2:41 pm

Lets go [xadamxk](#) The first step is here and released. Soon I can work with this to add the the HF Wiki, and I am sure tohers will find a use for this as well. Great work as always.

See you on the next edition ;)

jcole - May 11, 2026, 4:38 pm

Well done! Always a pleasure to see projects you create for HF.

xadamxk - May 18, 2026, 9:21 pm

Spent a bit of time today cleaning up events, adding missing contributors, and building out a basic UI to view all of the HF News Contributors from over the years. Sadly only a handful of the high contributors are still around on the site but I plan to honor them here in 2 weeks.

Here's the top of the list (that you can view using the tool now):

Rionxee - May 18, 2026, 10:05 pm

Great project my friend, HF News was a very solid project led very strictly by Hydra. Great to see this put together.

A Powerade - May 18, 2026, 10:35 pm

Had no idea that one of my threads was featured in HF News back in the day :D

Steve - May 19, 2026, 7:43 am

Great tool Adam, thanks for putting this together.

Wake - May 20, 2026, 12:20 pm

Very nice project, love looking back over some of the past editions.

xadamxk - May 22, 2026, 5:47 pm

Added several new features over the last couple of days to make filtering through events easier:

Added Editions tab to the viewer UI to easily open previous editions

Extracted statistics from news editions

Added a Statistics tab to the viewer UI preview ([Click to View](#))

Updated Contributors viewer UI to expand to see each contributor's editions

Tagged all "site" events and supported tag filtering in the event viewer UI

JoshAllen - May 22, 2026, 7:27 pm

Love this! Glad to be able to see threads I thought were gone forever.

Mix - May 22, 2026, 7:42 pm

(May 18, 2026 09:21 PM)xadamxk Wrote: [\[CITE\]](#) Spent a bit of time today cleaning up events, adding missing contributors, and building out a basic UI to view all of the HF News Contributors from over the years. Here's the top of the list (that you can view using the tool now):

crazy to see myself on this list even when I have made such a small impact.

Cap - May 22, 2026, 8:21 pm

Such an awesome thread here. You always have amazing projects for the site. This one is fun to look through.

Retribute - May 22, 2026, 10:28 pm

Such a sick project, great work man. I think preserving the history of the forum is very important. Nice to have on record that I contributed to 35 news editions back in the day

xadamxk - May 23, 2026, 2:34 pm

Glad everyone has been enjoying the project thus far!

I'm working on one last piece to the puzzle - pulling RANF threads from the windows when HF News was cancelled (3 different times).

This should complete the HF Timeline then we can start doing more with the raw events themselves.

Cooligan - May 23, 2026, 8:46 pm

Oh, NOOB! This is amazing! Just searched up my username and found all of the times I'm mentioned, plus all of my Contributor posts back from when I wrote Headlines under the OG Sir and then Hydra when he took over.

Man, this brought back SO many memories from back then. I miss these days so much. [Mix](#) here's a perfect thread for you to use to check out my previous Headlines work as we were discussing not too long ago. Just click on the Contributors tab, find my name, and click the arrow and it'll show you each edition posted by me, that's archived that is. I notice some editions (late #100s and early #300s) are missing from my list.

All in all this is the coolest user project I've seen released on HF in years. Absolutely love this [xadamxk](#) - great work as always.

Events that are logged (89):

? loading encrypted image...

My contributions to HFN that are archived (68):

xadamxk - May 23, 2026, 9:06 pm

(May 23, 2026 08:46 PM)Cooligan Wrote: [\[CITE\]](#) I notice some editions (late #100s and early #300s) are missing from my list.

If you can do the work to tell me which editions are missing the credits for you I can fix it.

Need you to help identify them though.

Novica - May 25, 2026, 2:55 am

A blast from the past indeed. Brings back some nice memories. Good work, X!

Cap - May 25, 2026, 7:08 am

Crazy to see HF all throughout the years. Like [Cooligan](#) said, the amount of memories that pop up are crazy and brings you right back in.

Wires - May 25, 2026, 9:09 am

This is such a throwback, [xadamxk](#). Brought back some great memories being with the Writ3rs—especially looking at some of those older comics and reading about myself being repfucked. Thank you for this tool!

JoshAllen - May 25, 2026, 12:30 pm

Glad to see so much nice feedback of pure memories.

xadamxk - June 1, 2026, 10:36 am

Going to work on one more feature this week then I'll probably leave this project be for a bit.

M?tt - June 3, 2026, 4:55 pm

I didn't need a reminder that I've done nothing for HF over the last 17 years, but I got one today. ?

? loading encrypted image...

All kidding aside, it never ceases to amaze me as to how much you contribute to this forum. 16 years in and you're still doing great things. I'm glad some things don't change. Keep being awesome.

DerMensch24 - June 3, 2026, 5:39 pm

A very interesting and useful resource, well done. ?

DAL-SHA - June 4, 2026, 12:55 am

Amazing project ! Refreshing to read some of those old nostalgic threads ! ?

xadamxk - June 23, 2026, 8:03 am

Any HFdle players can use this tool to study up on most of the questions!
