How do I use this? Does the target have to enable macros for the payload to execute and connect back?

DeathPenalty666 - May 17, 2026, 2:36 pm

(May 17, 2026 02:21 PM)matin Wrote: [\[CITE\]](#) How do I use this? Does the target have to enable macros for the payload to execute and connect back?

security warning for a macro, user must enable the macro function one time i think. This is macro exploit so yeah

Is there any way without needing macros? Like using Office or PDF 0day/Nday exploits?"

DeathPenalty666 - May 17, 2026, 3:00 pm

macro exploit do macro things. Be original and get the user to click on it or automate the user to click on enable and you good to go after. But lhonestly this is not my tools or my service so what the seller have to provide or can offer isnt any of my business, but i got to admin the exploit is much

better than many others i seen! Unfortunately i am way too broke for thos prive of things so all i can say is Good luck for your sale captain.

Do I need to use this together with a separate RAT, or does it already include one?

DeathPenalty666 - May 17, 2026, 3:05 pm

(May 17, 2026 03:03 PM)matin Wrote: [\[CITE\]](#) Do I need to use this together with a separate RAT, or does it already include one?

exploit builder, you nee your rat and ill put my hand in the fire you need it to be fud or the payload will be busted at execution. Or just make a powershell scriot to kill WD i mean i never seen a user with a antivirus yet on win10-11 hahaha....

TheStrain - May 19, 2026, 2:10 am

(May 17, 2026 02:21 PM)matin Wrote: [\[CITE\]](#) How do I use this? Does the target have to enable macros for the payload to execute and connect back?

Once document is opened, it will display "enable content" at the top bar. User clicks enable content and file will execute. You can watch the video for demonstration.

(May 17, 2026 02:36 PM)DeathPenalty666 Wrote: [\[CITE\]](#) security warning for a macro, user must enable the macro function one time i think. This is macro exploit so yeah

You are correct bro....

(May 17, 2026 03:03 PM)matin Wrote: [\[CITE\]](#) Do I need to use this together with a separate RAT, or does it already include one?

You need your own RAT, or you can as well order for the rat used in the demonstration video.

Stanley - May 31, 2026, 1:21 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

briggs101 - June 11, 2026, 7:55 pm

posting to come back, good luck with sales

Thank you brother...

briggs101 - June 19, 2026, 4:42 am

shoot me a pm please, let's see what's possible

tusena - June 23, 2026, 8:33 pm

Have you ever tried downloading this file from the internet?
\$500??
Are you kidding me?

PM sent

Th3HulK - September 9, 2026, 12:51 am

Interesting product, but a steep price for a macro exploit. GLWS

On what version your macro office exploits work does they work on latest version

dranc013421 - September 29, 2026, 9:48 am

I want to buy it.
