Thread: [Your Social Media Algorithm](#)

What is your algorithm or "FYP" on SM (tiktok, insta, etc.) like?

I don't use SM apps that much anymore but when I did, there were lots of conspiracy theories, red pill blue pill stuff, masculinity "how men should be" and music production.

The only content I really wanted was music production stuff, the rest felt "forced" on me.

I'm curious to hear yours.

I'm also aware that the user shapes his own algo but I don't believe this is completely true.

Mine are basically creepy tiktoks / creepy videos. I like that stuff.

Intresting. I take it you are satisfied with your algo then?

Mine's all over the place but I do see a lot of prison videos/stories for some reason. Beyond that, alot of motorcycle related content.

Mastercarder - May 21, 2026, 7:31 am

Mine's cooked honestly. One minute it's girls, models and gym content, next minute it's random conspiracy theories, dopamine/self improvement clips and completely unrelated garbage lol

Eran - May 22, 2026, 8:48 am

It'll be relatable stuff the first 20ish minutes. Then it turns into a shitshow the more I scroll.
