Charlie Sheen - May 21, 2026, 11:24 pm

Hell Motel is a pretty solid 8 episode mini series by Shudder. It's available on AMC+. Right now AMC+ is running a promotion of \$30 for 1 year so I decided to grab it and it's got a lot of great shows on there. Enough of the AMC+ plug.

Hell Motel is a mini series about a motel where 30 years ago was the site where a group of brutal murders took place for satanic rituals. Now 30 years later and under new ownership, the motel has been renovated to honor it's history and the owners invite a group of people to the motel for the sake of creating content for advertising purposes. Shortly after the groups arrival murders start taking place, the original killers are present but it's not them doing the killing.

This was a very fun, well done series. You could easily binge this weekend. I would rank this a high 8/10.
