Thread: [FAST-FLUX / ALL ABUSES IGNORED | NO KYC DOMAINS / RU + CN | KVM VPS & RDP](#)

NULLTRACE - May 22, 2026, 3:30 am

WHAT IS IT, WHO ARE WE, AND WHAT IS OUR PURPOSE?

We are a completely anonymous platform without KYC, without verification, and without the need for phone number or email address.

Just top up your account and start using our services.

You will only need to provide a username and password to signup.

Currently, the following crypto coins can be used for payment:

BTC
ETH
LTC
USDT (TRC-20)
TRX
ZEC
TON
XMR
SOL

We do not use payment gateways or third-party payment processors, so all transactions are processed directly and automatically by our system.

FAST FLUX

Fast Flux is a domain-DNS system that hides your real server IP behind a network of proxies.

This means all abuse reports go to the Fast Flux proxy - your real backend won't be affected, won't be blocked and won't be traced.

When someone tries to find out more about your domain, they only see the IP address of a proxy, not the real IP of your backend.

Proxy IP addresses can change several times per hour, leaving no chance to detect or block your real server IP.

You can buy your domain and server anywhere. Just set our nameservers for your domain, add it to web panel and you're good to go.

Multiple parallel modes

TCP RELAY
TCP + TCP SSL
HTTP + TCP SSL
HTTP + HTTPS

Separate settings for each domain

INCOMING / OUTGOING PORTS
WILDCARD
SEND-PROXY V2

X-FORWARD-FOR
X-REAL-IP
HTTPS + SSL
HTTP2 ONLY
ALWAYS HTTPS
X-PROXY-SECRET HEADER
CUSTOM SSL PORT FOR HTTP/S PROTOCOL

- › Batch domain addition via API
- › Bulletproof DNS servers
- › Cloudflare + Fast-Flux out of the box
- › Ultra-fast blocked proxies detection and switching: <30 seconds
- › Fast and responsive online support

Quote:We provide the most technologically advanced and reliable FAST-FLUX service available today.

Code	-----+	-----+	-----+
Tariff	Domains	Price	
-----+	-----+	-----+	-----+
PROMO	1	\$150	
COMMON	10	\$300	
RARE	100	\$450	
LEGENDARY	UNLIMITED	\$700	
COMMON x2	20	\$550

Domains

For enhanced security and convenience, we offer reliable bulletproof DNS hosting through DNSPOD or Cloudflare to help mask your IP address.

Alternatively, you can use your own name servers and manage DNS records independently on a third-party service.

We keep things straightforward no monthly subscriptions, premium accounts, or hidden tiers. Instead, your benefits grow with your balance: the more funds you deposit, the greater your discount and the more features you unlock.

The minimum deposit is \$100.

Discount system

Code	+-----+	+-----+	+-----+	+-----+
SILVER	GOLD	PLATINUM	DIAMOND	
\$1000-1500	\$1500-2000	\$2000-3000	\$3000+	
1 month	1 month	1 month	1 month	
+-----+	+-----+	+-----+	+-----+	+-----+

Our features

Two registrars to choose from - regular (Russia) and semi-bulletproof (Hong-Kong). And for every domain you buy, we'll provide a free SSL certificate.

We automatically check your domains against all major blacklists every 3 hours and tag them if they get blocked.

If you are a reseller, we offer a full range of API features.

You can interact with our service remotely through your website or a bot.

We don't use telegram for communication - it's unprofessional.

We don't use public CDN to proxy traffic to our resources - this is amateurish.

We do not store logs on servers, and we delete all traces in your account automatically after a certain amount of time has passed or upon request.

We really encrypt data on servers and nodes, even we don't have direct access to configs and databases.

ToS & Refund Policy

By purchasing the service, you agree to these terms and conditions.

You are solely responsible for the content hosted on our servers and any consequences that may arise from its use.

We do not accept any responsibility for any actions that may cause harm or damage to the countries of the Commonwealth of Independent States (CIS).

We provide servers with administrative root access. After purchasing the server, you decide for yourself how to use it.

We are not liable for the leakage of real server IP addresses when using Fast Flux, if caused by improper configuration of the backend or DNS records, or by the use of previously compromised data.

Refunds for VPS or Fast Flux services are possible only if the service has significant disadvantages that prevent it from being used for its intended purpose:

? Its actual technical characteristics or functionality do not match the characteristics and conditions stated in the description of the service at the time of purchase.

Refunds are not made for subjective reasons:

? The user does not have the necessary technical skills to use the service.

? Inappropriate choice of configuration or type of service by the user.

? Errors in the operation of third-party software configured by the user.

Unused balances cannot be refunded, and refunds due to an early cancellation of service are not provided.

Raijin - June 25, 2026, 5:38 am

This is an interesting service. Good luck with sales.

Stanley - August 24, 2026, 6:46 pm

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
