Thread: [iphone pin password bruteforce method](#)

P1N7 - May 22, 2026, 10:16 am

any plug in ios apps that do the 6 digit lock?

z84k - May 22, 2026, 10:33 am

w method ngl

Lol hahahaha!! Was thinking the same thing.

And OP, no, nothing like that exists because it doesn't work.

Like an app that is a plug-in and can bruteforce a PIN for another app? Yes, but realistically only a single digit (if such a thing did exist).

thanks

P1N7 - May 22, 2026, 5:33 pm

Thanks for the information the device has an icloud account linked that prevents the phone from user input after update

Then it's really impossible to be bruteforced.

P1N7 - June 24, 2026, 6:34 pm

It really is, I tried to sell it the other day and the machine even rejected the \$20 piece of paper
