when degenerate skeet/gamesense invites?

Can every person you invite, invite another 2 people? If so why not make multiple accounts to have multiple invites.

Make multiple accounts to have multiple invites that are impossible to give away these days with 90k users? Also they are free...I give them for free...why would I want more? No gain no loss to me...just tryna help out.

Nobody is offering skeet invite and why beg? Just make friends and tbh now is probably a good time as lots of people been unbanned and the forum is thriving again.
