Thread: [Start your own IPTV Business | Whitelabel IPTV Provider | Earn Money Selling IPTV](#)

SIM-2470866 - May 25, 2026, 6:21 am

One of the oldest IPTV Seller around on this forum (almost 4 Years)

I've finally decided to open up my own reseller program publicly, before I was offering to only my close customers.

You can find my old thread here along with vouches for my service:

Frequently Asked Questions

- How do I actually earn money?

It's straightforward: you are the boss. You find the clients (start with friends, family, or social media), set your own retail prices, and manage your users through the provided panel. Because "everyone watches TV," your market is virtually limitless.

- What devices are supported?

We support almost every device on the market, including FireSticks, Android Boxes, and Apple products. The only exception is Roku, due to its technical limitations.

- How the Reseller Program works?

We operate on a simple Credit System. You buy credits from us at a wholesale price and use them to activate subscriptions for your customers whenever you want.

- What apps will be provided?

We provide 2 Whitelabel apps with no branding (Which you can use) other than that we also offer customized / your own branded app at a cost.

- Any other questions?

Very promising.

Does it work in Australia?

I'm posting here to come back to it later.

Do you have to use a vpn while using this service and if so is it provided with the app?

It is highly recommended to use a VPN with IPTV as ISPs are known to block / throttle IPTV and honestly its safety for you too.
(Not provided but you can purchase one from us or yourself)

I can vouch for this panel/reselling service. I got the panel and SIM made it easy to get onboarded with detailed info. Service was the best out of all the ones I tried for my needs. If you need a provider this one is definitely a high quality one.

I'm an iptv seller but not on here, I mostly go from word of mouth and I'm at 200 active lines right

now but what do you guys use for payment gateways to not get flagged by them, I know crypto bypasses this but not a lot of buyers are willing to make the switch to Crypto, Thanks!

I will vouch for this seller and the service!

About the seller: Super helpful and answers any and all questions/concerns. I asked the guy so many questions I felt like I was annoying him at certain times but he kept reassuring me it was all good.

About the service: Pretty easy to set up. He'll walk you through it (if you're a newbie) if needed. And he also explains how you can set up others (for your reseller business) as well as helpful guidelines, tips, on how to price your services properly. So far, the service (IPTV) has been pretty great. My only qualms is that there are certain channels (like international) that will have no picture / no information but that is because nothing would be currently airing on that channel at the moment I checked.

However, as far as mainstream stuff that most people would care about (US news, family, movie, sports, children channels), those are consistently up and running which means your customers are going to find it pretty hard to get bored if trying to find something to watch (not to mention a massive VOD directory). There's even 24/7 channels like for example if you wanted to watch Family Guy 24/7 it literally just runs the show 24/7, and these 24/7 channels are also broken down into genres so you can find your favorites pretty easily.

Overall, I recommend working with SIM—I felt like he was pretty transparent and about what you would get and what you wouldn't get.

Support: 10/10

Absolutely spot on. They help you with everything, answer all your questions, and make setup a breeze!. it only takes about five minutes.

Service: 10/10

Works great and is incredibly easy to use. The channels are neatly organized, making everything easy to find. Other services I've tried felt cluttered and messy, so this is a refreshing change.

If you're looking for quality and excellent support, you're in the right place. Highly recommended!

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
