Thread: [Looking for a reliable partner. Web Dev / Payment Gateway / Account sourcing](#)

WiseGuyPaulie - May 25, 2026, 10:56 am

Ok so I need a reliable partner in my corner who can provide a fully functional payment gateway and receiving account for my site. I currently have one site up and running it just needs account, so I'm looking for someone who can continuously source stripe or NOWpayments or accounts like these that can receive payment from my "clients".

These accounts will need to be able to receive at least 3000usd per transaction. But if we could go higher even better. I have a system that makes money mon-fri and sometimes weekends as well if I choose to work. I direct traffic to website, they use their debit and credit cards to utilize our payment gateway. We(me, my team) get paid.

As I stated I do currently have one site but I do need more so if you're sufficient in web dev and can source receiving accounts, we can also start new sites and do the same thing. I've tried the dark places to find reliable people and only got scammed for service or for products. So please, if you're willing to discuss business be serious and know that I am not looking to buy anything. I can show proof of my thing working and making money, and I'm looking for serious partners who can source accounts and or web dev...

Fyi, this thing I do.... Payout could fluctuate from 5k-20k daily on average with a fully functioning website. Money will be plentiful I just need a reliable trustworthy partner that can handle his part.

Looking or account sourcing partner for up and running site.

Looking for web dev/account sourcing partner for new website.

Please, be serious.

If you have good standing in the community, since I am new here with no history. I will allow my partner to control the funds that way he has no worry of shady business. You can control the website, accounts, etc. All I will have is the link to the website so that I can send my clients there to make payments. If you are interested in making money 5 days a week, please contact me.

If you do not have a good record in this community, do no expect to control accounts and website fully. I am ready to begin work immediately, please contact me if you have the skills I need

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

Stanley

Looking or account sourcing partner for up and running site.

Looking for web dev/account sourcing partner for new website.

Please, be serious.

I do have experience with payment gateway integrations, web dev setup . However, I only work with legitimate and properly verified solutions and

That said, I'm still relatively new here as well , so I completely understand if trust or reputation is an important factor for you. In that case, I would recommend waiting for someone with a more established profile on the platform.

So a guy I was talking to from here just left me a -10 rating for no reason, and called me a scammer lol... Crazy work... Like I have all the screens from our convo and idk why he out of the blue just did that after he told me what I needed him to do was too complicated... Weirdest thing ever...

Position is still open, as I stated, you control the wallet if your account is in good standing.... As in you have to have good ratings(funny I'm asking for this when this crazy guy just left m -10 and said I'ma scammer ?)

This was our last message before he gave me -10 rating and said I'ma scammer with no context... He literally just told me something,(never clarified) was too complicated I asked what he meant, he said I'ma scammer.... Which is bullshit ..

Now I don't know what could have happened in the 30 or 40 minutes that we didn't talk, but we didn't do any business, so to label me a scammer is crazy.. I can only assume he grew frustrated when his professed skills fail short of the menial task I required...

No big deal... As I stated... Anyone who really wants to work, and actually knows about web dev / payment gateways and can source accounts, please contact me... **YOU CAN CONTROL THE MONEY!** Just have good rep .. all I ask .

This is our whole conversation .. I talked to more people who know the guy they say he is crazy... Lol... I'm just hoping there was a misunderstanding on his part versus me assuming that he just labeled me a scammer because he said the work was too complicated ..

I literally never asked him for money never asked him to send me a dime, and I put in my post that anybody with good rep could control the wallet/account the money would be going to... So there's no way I could've been scamming anyone ... I won't mention this bs again, I just hate someone to attack my character when I have done nothing but try to network and find a partner as a new member of the community.
