The complete season is released today, in both Black and White and Color versions!

SPIDER-NOIR (2026) | Oren Uziel, Steve Lightfoot | USA

Fantasy, Science Fiction

Nicolas Cage, Rebecca Breeds, Lamorne Morris.

In 1930s New York, an aging and down-on-his-luck private investigator struggles with his past as the city's one and only superhero.

Once I watch it, I will give my review here.
