???????????????????? ABOUT ?????????????????????

The growth team at [BrandForge](#). We've been running growth strategies for clients since 2024 — Discord community growth, targeted forum traffic, AI SEO, short-form video, and paid ads. Proven results, real numbers, monthly reporting.

???????????????????? SERVICES ?????????????????????

? Discord Growth

- > Member growth strategy & execution
- > Server setup, branding & channel structure
- > Engagement systems & retention mechanics
- > Community content calendar & scheduling
- > Onboarding flow design

Proven: "Grew the Discord & sales — great service" — @Deleted (2024)

Pricing: \$200–\$600 setup · Custom retainers from \$300/mo

? AI SEO (Generative Engine Optimisation)

- > Optimised for ChatGPT Search, Perplexity, Gemini, Claude
- > Entity building & Schema.org structured data
- > FAQ & content systems built for AI crawler extraction
- > Traditional Google SEO foundations included
- > Monthly content publishing & link signals

Why this matters in 2026: Over 60% of searches now touch an AI answer layer. If your brand isn't in the AI answers, you're invisible to the next wave of buyers.

Pricing: \$500–\$1,500 setup · \$800–\$2,000/mo retainer

? Short-Form Video Systems

- > Ad template creation (TikTok, Reels, Shorts)
 - > Content calendar & scripting
 - > Hook testing & iteration frameworks
 - > Repurposing systems (one input -> many outputs)
- Pricing: \$300–\$800 system build · \$500+/mo execution

? Paid Ads

- > Google, Meta & TikTok ad management
- > ROAS tracking & weekly optimisation
- > Creative testing pipelines
- > Retargeting setup & audience build

Pricing: \$500+/mo management (ad spend separate)

? Targeted Traffic & Forum Presence

-> High-quality organic posts & threads

-> Platform-specific growth strategies

-> Forum reputation building

-> Cross-platform traffic funnelling

Proven: "Big thanks for outstanding support and targeted traffic services with high-quality organic posts and threads" — @Nioos (2024)

Pricing: \$200–\$600/mo

Imagine meeting yourself ten years from now.

They won't ask what phone you had.

They won't ask what AI model you used.

They'll ask:

"Why did you wait so long?"
