EN:

I'm looking for an active telegram group based around social engineering. Call/SMS spoofing. Email spoofing. Website cloning Etc. I cannot find much info of this on this forum. I need a group that's willing to work together to achieve our individual goals. I do not want to say much more than that on here but if you understand what I mean Let me Know. Thanks ?

ES:

Busco un grupo activo de Telegram especializado en ingeniería social: suplantación de identidad por llamadas/SMS, correo electrónico, clonación de sitios web, etc. No encuentro mucha información al respecto en este foro. Necesito un grupo dispuesto a colaborar para alcanzar nuestros objetivos. No quiero extenderme más, pero si entiendes a qué me refiero, házmelo saber. Gracias ?

BTW im originally spanish so i apreciated if i get spanish replies (real interested ppl), thks.

You're on an American forum.

Maybe... just maybe... you should consider a spanish forum...
