Thread: [20,000 credits " Anything "website !](#)

Jamika - May 30, 2026, 7:42 am

I got you 20,000 credits for the Anything website for vibe coding, meaning you can build any website or app just by describing it.

Focus on the steps:

First, go to this link and create a regular account first:

<https://www.anything.com/invite/ua9gdbrk>

After creating the account, go to this second link to activate the 20,000 credits:

<https://www.anything.com/signup?utmsource=promo&utmmedium=free-credit&utmcampaign=anythingplaystorelaunch&dubid=znvE3L0a0X3pl4Jz&promo=anythingplaystorelaunch>

? loading encrypted image...

This is what I seen when I went to it after creating the account :/ I was looking at the doc's and stuff for "Anything" and I'm hoping it's pretty neat if I can get to use it lol.
