What do you think of crypto btc price prediction after 1 year?

currently as of today it is trading at 62855\$ usd

What you guys think after 1 year same date 5 june 2027.

Maybe if i remain here i will check after 1 year.

My prediction is it will be more tighter and less demand so price will go more down. Dont know how much but i will predict it will be more down.

What guys you think
