Hello everyone,

I am looking to sell a brand new, fully verified PayPal Business Account registered under my own UK LTD company.

The entire setup is 100% legal, clean, and properly documented. It is a solid, ready-to-use payment gateway ready for transfer.

Account Details & Features:

Type: PayPal Business – Brand New Account

Legal Structure: Tied to an active, legally registered UK LTD.

Status: Fully verified (ID, Video/Selfie, and Company Documents have all successfully passed verification).

History: Clean account, 0 transactions, 0 disputes, no restrictions, and no hidden penalties.

Bank/Card: Can be delivered with or without the associated corporate banking details (can be discussed based on your needs).

What you will receive:

Full ownership/credentials of the brand new PayPal Business account.

Price: 400\$

Payment Methods: Crypto (USDT/BTC)

Note: We can absolutely use a trusted middleman/escrow service for a safe transaction. The buyer covers the fee.

If you are interested or have any questions regarding the account details, feel free to drop me a PM!
