Wow, interesting. Wish I saw this before I bought my cruise WiFi.

Gonna try this then on my cruise this week.

- is it the same data rate on the cruise?
- can you hotspot to others on the cruise?

Missed your post - rates are different per region, each regions price can be found on our website.

And yes hotspot is enabled for all users.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
